Dorman Cooling Systems for Mazda Tribute | eBay

I'm trying to help a friend of mine. He thinks his car may be in the early stages of a headgasket failure. I looked at his antifreeze and I'm on the fence if it's starting to get that look like exhaust is entering his cooling system.

Testing Antifreeze for exhaust gases? - Bob Is The Oil Guy

The radiator performs a critical function; it keeps the engine from overheating. While running, the engine produces heat. Coolant flowing through the system absorbs and removes extra heat from the engine. The coolant then passes through the radiator where it cools off and is later circulated back to the engine to absorb heat again.
