### **manual grease gun | eBay**

Generally used in applications with lower fill volumes and fewer lubrication points, these guns dispense a measured amount of grease with a simple hand pump. They're available in lever or pistol-grip styles. Guns with a lever dispense more grease but require two-hand operation. Pistol-grip guns only need one hand to operate but dispense less grease.

Manual greasing is based solely on the person operating the grease gun; when grease begins oozing out of the fitting this is the sign that the fitting doesn't take any more grease. However, overflowing grease may also be caused by a poor fitting connection or dirt in the grease fitting causing a clog.
