### **Copi Instructor Manual - 1642598126.rsc.cdn77.org**

Copi's introduction to both inductive and deductive logic is one of the best surveys of philosophical logic in print. It's highly accessible and covers a lot of territory, more than any other introduction I've encountered.

### **Introduction to Logic book by Carl Cohen - ThriftBooks**

I really liked Irving Copi's Introduction to Logic. I don't know if its the best for self-learners per se but over all its just a great logic textbook and really helped me out. Also, Irving Copi studied under Bertrand Russell while at the University of Chicago so there's some bonus points right here.

### **What is the best Intro to Logic book for a self learner?**

OXFORD TEXTS IN LOGIC Books in the series 1. Shawn Hedman: A First Course in Logic: An introduction to model theory, proof theory, computability, and complexity 2. Richard Bornat: An Introduction to Proof and Disproof in Formal Logic 3. Ian Chiswell and Wilfrid Hodges: Mathematical

## Logic

### **Mathematical Logic - Site UEVE Production**

This course is an introduction to Logic from a computational perspective. It shows how to encode information in the form of logical sentences; it shows how to reason with information in this form; and it provides an overview of logic technology and its applications - in mathematics, science, engineering, business, law, and so forth.

### **Introduction to Logic | Coursera**

Logic is not just for Spock; deduction (which, if you read this book, you'll discover is rather different) is not just for Sherlock Holmes. Many if not most students of philosophy over the past 50 years have had their beginning logic training from an edition of this book, 'Introduction to Logic' by Irving M. Copi, now in its eleventh edition, also now with a co-author listed, Carl Cohen.
