The M112 and M113 engines built between 1999 and 2005 have been very reliable with respect to timing chains and in general. The M272 and M273 engine introduced in 2006 have had problems with the timing resulting from a worn balance shaft sprocket (M272) or timing chain idler gear on the M273. That gear may not have been hardened properly and is a subject of a class action lawsuit.
