Checking Mercruiser engine alignment

Shop for all your boating needs at www.wholesalemarine.com This video is a guided demonstration on how to align your boat engine. Use caution and consult the manufacturer's manual before ...

How To Align Your Boat Engine

Re: Mercruiser Alignment The engine is a new 5.7l Vortec, the outdrive is an '92 Alpha 1. The engine required a new 12 3/4" flywheel and coupler (GLM). No other work has been done and the transom, etc is solid. I was just outside playing with it again and the tool slides in easily and very slightly bumps the top edge.

Mercruiser Alignment Page: 1 - iboats Boating Forums | 455755

A 96 Mercruiser 5.7. The engine had been out by the PO. I put in a new gimble bearing. When I check the alignment, the tool gets stuck long before it bottoms out.. It's very hard to remove. So, I'm assuming that the engine is far out of alignment. *** How do you get the engine close to aligned, after an engine has been out?

Mercruiser finding engine rough alignment ? - The Hull ...

The motor in a MerCruiser-powered boat is bolted firmly to the floor and transom inside the boat. ... How to Align a MerCruiser Outdrive ... Insert the alignment tool through the gimbal bearing and into the splined receiver on the engine coupler. Make a mark on the alignment tool with a piece of chalk exactly on the top side of the handle part ...

How to Align a MerCruiser Outdrive | Gone Outdoors | Your ...

Check Your Engine Alignment Mercruiser engines must be properly aligned or the Drive Coupler will be damaged. The drive is attached to the engine through the use of a drive coupler. This coupler is bolted to the engines flywheel or crankshaft. The male splined driveshaft yoke from the outdrive slides into the female splines of the drive coupler.

Sterndrive Information, tools, manuals and Mercruiser ...

The alignment instructions from the manufacturer of the tool call for the engine to be rotated through 90 degree increments to recheck alignment once initial alignment has been achieved. However, the Mercruiser Installation Manual does not call for this.

57 alpha one engine alignment - Boat Repair Forum

Mercruiser doesn't align the engines. That is the responsibility of the builder. If the drive won't slide on, then the alignment is totally fubar. Get the alignment tool and check it. The transom assembly holes are drilled oversized for this purpose. Loosen it and you can slide it around a little bit. A rubber mallet works good for this.

Engine Alignment - Offshoreonly.com

Note also that the long stud can create a substantial lever if the engine is mounted up toward the top. Over time they sag substantially, throwing the engine out of alignment. It is supplied standard with Mercruiser and Caterpillar engines.

Marine Engines : Drive System Alignment by David Pascoe ...

The best option (according to my Mercruiser repair shop) was to buy a drop-in remanufactured Plus-Series Engine package from Mercruiser. I swallowed the hook, mainly because this remanufactured Mercruiser had a 3 year warranty and it was a 357 magnum 4 barrel with 325hp.

Mercruiser engine replacement and alignment | Boat Design Net

The replacement coupler from Mercruiser was steel. If you have a big block Mercruiser engine and Bravo 3 check your alignment at least every 100 hours as the manual specifies. If you are a DIY owner the alignment tool is just a steel rod with splines on one end. If it slides into the coupler with no binding, your alignment is fine.
