^ Very true, when you write solutions for a 1000 page textbook with difficult problems you are bound to make mistakes. ^^ You seem dumb. (a) you can always check answers with classmates, (b) your TA will probably return your graded solutions, and (c) most MWG problems ask you to prove things: the solution is not a number you can compare to.

which have been among the most active areas of research in microeconomic theory during the last twenty years. We begin, in Section 13.8, by introducing asymmetric information into a simple competitive market model. We see that in the presence of asymmetric information, market equilibria often fail to be Pareto optimal. The tendency for ...
