Command-Line Syntax for this Manual. Remember the UNIX/LINUX command line is case sensitive! All commands in this manual are printed in gray code boxes. Commands given in red are considered more important for beginners than commands given in black. The hash (pound) sign "#" indicates end of a command and the start of a comment.

### **Linux Basics - Manuals**

A man page (short for manual page) is a form of software documentation usually found on a Unix or Unix-like operating system. Topics covered include computer programs (including library and system calls), formal standards and conventions, and even abstract concepts. A user may invoke a man page by issuing the man command.
