Manual Do King Air C90

The Beech King Air C90 electrical system is a 28-volt DC split bus system with a negative ground. During normal operation, primary electrical power is supplied by two 30-volt, 250-ampere DC starter-generators. The secondary source of power is a 24-volt nickel-cadmium battery or a 24-volt lead-acid battery.

Your personal reporter Angelique van Campen is pleased to offer you her in-depth review of the Carenado C90B King Air for X-Plane 11. According to Angelique "Did I like the C90B King Air for X-Plane 11? Yes, but to be honest I did like the same model already for X-Plane 10, so that's not really new to me. Overall a nice, not too far away, test flight for this C90B to LSZH using the Garmin ...
