TSP's AFM-series camshafts are a great option for L99 customers looking for a camshaft upgrade without having to remove your cylinder heads and replace the lifters! With the TSP AFM-series camshafts, you will receive the camshaft of your choice as well as a camshaft phaser tune custom-designed on the Texas Speed Superflow 902 engine dyno!

### **Texas Speed Stage 1 AFM-1 L99 Camshaft**

L99 camshaft is different — having a little less duration and a little less lift, both of which give the engine a smoother idle. L99 has a cam phaser and, to get the additional piston-to-valve clearance required when cam phasing changes, the pistons are different parts having valve reliefs machined into their tops.
