Re: Where to start? Mercruiser 470 with water in the oil The two basic tests for a 470 are the compression check (already done and looks fine), and a coolant system pressure check (borrow the tools from Autozone). Is there antifreeze in the engine? Can you smell antifreeze in the oil. Check the waterpump on the front of the engine.

### **Where to start? Mercruiser 470 with water in the oil Page ...**

The 470 featured a cast aluminum engine block designed by Mercury Marine, the name Kiekhaefer's company had taken in 1969, and the block was mated with an iron cylinder head from the Ford 460 V-8 engine. The same engine block was used in several other MerCruiser engines, including the 170, 190, 485 and 488.

The previous answers are fine, but MerCruiser's engine oil that you can buy in quarts (I purchase it in bulk 55 gal. drums for my marina) is actually 25W40 oil. This is because a boat engine sees around 70 to 80% load ALL THE TIME when it is running vs. a car engine that sees anywhere from 20 to 40% load.
