Benefit from a digital control, built-in over-temperature protection and a flexible vacuum/purge/release system with Thermo Scientific Lindberg/Blue M Vacuum Ovens. These ovens work well with a range of applications including drying, curing, outgassing, aging, process control and other applications

**Lindberg/Blue M™ Vacuum Ovens - Thermo Fisher Scientific**

Lindberg Blue M Vacuum Ovens are designed for convenient and efficient purging and backfilling of the chamber prior to heating operations. The flexible and efficient vacuum/purge/release system is ideal for applications requiring reduced or inert atmospheres. Available in 0.65, 1.5 and 4.5 cu. ft. capacities.

Description. The Lindberg/Blue M Economy Series 220°C Gravity Convection Ovens are suitable for small work volumes which do not require the accelerated drying times and chamber uniformity characteristic of mechanically convected ovens. Each gravity convected model generates a unique air flow through perforated stainless steel shelves...
