This takes time and teacher expertise. Algebra tiles are not an end to teaching basic algebra concepts—when used appropriately, they provide students with opportunities to connect their work to the concepts. And it is these connections that enable students to make sense of the abstract representations.

zeros of a function, root of a function, factor, x-intercept, quadratic equation (A.4) Student/Teacher Actions (what students and teachers should be doing to facilitate learning) 1. Distribute copies of the Factoring for Zeros activity sheet. Have students adjust the windows in their calculators as suggested for the beginning setup. 2.

### **Factoring for Zeros - VDOE**

Factoring polynomials is such an essential, foundational skill in Algebra. As students move on to more advanced concepts and even into higher levels of math study, they will still need to factor to solve all sorts of problems. So building a strong foundation and providing lots and lots of practice is the key.
