Bicycle with 4 stroke 25ccm LPG engine (lehr trimmer), 3 speed gearbox (drive rolller on 3 speed hub). Cruise speed: 25mph Range: 25 miles.

**LPG Bicycle engine**

Propane has a higher octane rating than petrol, if the engine is set up for it ie timing and compression and the gas is injected as a liquid you get significant gains in power and economy. Ralph Sarrich has made an injector for 2 strokes that makes them clean, combine this with propane and you have a very efficient engine.

An LPG powered scooter is a scooter powered by liquefied petroleum gas (LPG) or autogas. The scooters are in use in China and many parts of Southern Asia. Shanghai has banned petrol scooters/mopeds and only allows LPG scooters to be used in the city due to air pollution. About 190,000 gasoline mopeds were eliminated between 2001 and 2004, replaced by 140,000 LPG mopeds as of 2004, at which time ...

Bi-fuel vehicles are vehicles with multifuel engines capable of running on two fuels. On internal combustion engines one fuel is gasoline or diesel, and the other is an alternate fuel such as natural gas (CNG), LPG, or hydrogen. The two fuels are stored in separate tanks and the engine runs on one fuel at a time in some cases, in others both fuels are used in unison.

### **Bi-fuel vehicle - Wikipedia**

Compression = power. Changing the timing is the most important part of a propane conversion. It likes a real fast curve like old school racecars. 14 degrees initial with a full 40 degrees in by 2200 RPM. I think the biggest problem to get a 2 stroke to run on propane would be trying to figure out how much oil to inject and how to change the ...

### **Propane conversion | Motorized Bicycle Engine Kit Forum**

EnviroGard Propane Conversion Kits: EnviroGard Propane Conversion Kits allow gasoline engines to operate on propane. EnviroGard does significant dynamometer testing of its conversion kits installed on gasoline engines to ensure peak optimal performance, balancing out horsepower and torque with reduced emissions and increased fuel economy.
