Compustar and Viper both have remote starts that can be installed in manual transmission vehicles. It cost me \$390 to have a Compustar installed in an automatic transmission \$197 recently. I don't know if this shop will do manuals or if they charge the same price. Just check around at local car audio shops;

Remote Start with Manual Transmission? : Mustang

Remote Confirmation 2-Way remotes let you stay in touch with your vehicle, confirming your commands (such as remote start, or arming your security system) either with an LCD screen on the remote, or using LED lights. Some 2-Way remotes also act as a security pager, letting you know your siren has been triggered, even if you are too far away to hear it.

Viper LED 2-Way Remote Start System

Given the safety issues involved in remote starting a car with a manual transmission, I would say that the best starter for a car with a manual transmission is the driver, who manually engages the starter by turning the key the 'start' position whilst at the same time depressing the clutch pedal fully to the floor, applying the service brakes and before the attempt is start the engine is made, fully engages the parking/emergency brake.
