Hobart CT-300, AC DC Cyber-Tig, Welder Instructions and ...

Found a Hobart CyberTIG, and have NO clue if this is worth anything. Never heard anything about them. Good machines? Energy hogs? Worth it to source parts for and get running? I DON'T KNOW IF IT RUNS, but will call and ask when I have the money. They're asking \$200, so I'm skeptical about it running. If it doesn't run, would it be worth the money to try and get it fixed?

Hi Stuart, I also have a CT-300 with the 120 programmer. I have not had any high frequency problems only a flip flop problem. I know Keith one of the moderators of this board is very knowledgable on Hobart welders in case he doesn't chime in, I contacted Mike at C&M Welding Services (Ohio) 419-584-0008 he had helped me out trouble shooting my CyberTig, I think he use to work for Hobart.
