The 1 hour LTD Stirling engine project! One problem with most Stirling engines is that they take quite a long time to build, the 1 hour Stirling engine project aims to be a quick and easy LTD Stirling engine that will run off a cup of hot water. Inspired by the plans published by Soeren Scharf. Here's the first run of my first version of this.

storage subsystem, a Stirling engine for energy conversion, and a waste heat recovery system to implement combined heat and power. The system as envisioned would be appropriate for residential solar generation or on a small commercial building scale. The Stirling engine is a key component of the system and is the focus of the present paper.
