Marine Engines & Systems MAN Energy Solutions is the world's leading designer and manufacturer of low and medium speed engines – engines from MAN Energy Solutions cover an estimated 50% of the power needed for all World trade.

Marine Engines & Systems

The Diesel engine (also known as a compression-ignition or CI engine), named after Rudolf Diesel, is an internal combustion engine in which ignition of the fuel, which is injected into the combustion chamber, is caused by the elevated temperature of the air in the cylinder due to the mechanical compression (adiabatic compression). Diesel engines work by compressing only the air.
