It will not waste your time. recognize me, the e-book will categorically tune you other matter to read. Just invest little grow old to right to use this on-line statement mercruiser engine coolant sensor as capably as review them wherever you are now.

Mercuriser Engine Coolant Sensor

"The Engine Coolant Temperature (ECT) sensor uses a thermistor to control the signal voltage to the ECM. The ECM applies 5 volts on CKT 410 (circuit) to the sensor. When the engine is cold, the sensor (thermistor) resistance is high. As the engine coolant warms up, the sensor resistance becomes less.
