I have a marine diesel 6 cylinder Ford Lehman 120 hp with a velvet drive 1970', can I rebuild this engine to turbo and - Answered by a verified Marine Mechanic

I have a marine diesel 6 cylinder Ford Lehman 120 hp with ...

The usual hassle is how hard it is to remove the engine. Some have to be almost completely dis assembled and carries in pieces up a companionway by a number of folks. Some have a hatch so the engine can be removed with simple hoist , then a fork lift. It is usually far cheaper to rebuild the existing engine , or replace it with an identical unit.

Ford Lehman diesel - Divemaster

Next, I turned my attention to the secondary fuel filters on the engine. These are twin filters and are the original style that comes with the Ford Lehman 120. To remove the filter, a plastic knob on the bottom of the housing is removed. At the same time, the securing bolts on the top of the filter is removed.

Marine Trader 34 DC boat for sale in Miller Place, NY for ...

I have been down to see a 38ft trawler yacht at a broker's over the weekend, which is powered by a pair of 6 cylinder 120hp Lehmans. I researched the engine and boat size and the general consensus is that a pair would consume about 1.5 to 2 gals per hour each. I asked the broker to ask the owner for his consumption figures and he is quoting 1 litre per hour for each engine at 1800rpm 8-9 knots!
