FOR THE BENEFIT OF FUTURE GENERATIONS. We're proud of how our engineering can shape the most important buildings in the world. We are driven by the desire to help these iconic places improve the way people live, now, and for generations to come.

ME Engineers

Introducing engineering . 1.3 Standards. When boilers were first made for steam engines, little was known about steel. Plates were riveted together and engineers were ignorant of the stresses in the material. Of course there were successes and there were failures; both can be learned from, even if the lessons are only 'use thicker steel plates'.
