Re: 1989 Larson DC 454 engine removal... You should remove the outdrive (at least the upper gearcase) - this pulls the driveshaft out of the coupler. The coupler is bolted to the flywheel of the engine. Once that is done the engine can be removed. I do not think you can remove the bellhousing without removing the engine.

Most maintenance and repairs to an inboard/outboard boat engine are performed with the motor mounted in the boat. Occasionally, it's impossible to make the needed repairs with the motor in place and the only alternative is to remove the motor from the boat. This is not as difficult as you might think if you have ...
