You can manually choose Spotify playlists to sync to your iPod, rather than let everything sync automatically. The grid of images across the page represent folders of your music, including playlists. Your folder of local files (represented by the music-note icon) is listed first; selecting this icon syncs all your local files to your iPod.

How to Manually Sync Spotify Music to Your iPod - dummies

For some reason my ipod doesn't sync automatically, so I tried syncing it manually. This worked perfectly for putting music onto my ipod, but I was wondering if there was a way to take music off the ipod this way, because if you wanted to do it automatically, you could just delete it off itunes and it would remove the song off the ipod. Any help is hugely appreciated!
