Merccruiser 140 Starter: Parts & Accessories | eBay

The Mercruiser Key Switch has three terminals on the back. One is a large Red wire which is the main positive feed. Another wire will be Purple which is "ignition". This feeds the gauges and keeps the engine running. The third lead is Yellow/Red and it is what activates the starter slave solenoid to crank the engine.

Amazon.com: mercruiser ignition switch

I have a 140 hp. mercruiser. Every fall and spring at start up I get a situation where no spark is present. This started after I replaced the engine 2 years ago. Last year after the initial start up woes, I used it for 2 weeks at vacation. Parked it for a month, tried to use it again, same story, no spark. this is getting very frustrating.

I have a 140 hp. mercruiser. Every fall and spring at ...

My Engine Turns Over OK But It Won't Start If your engine won't crank or turn over, go HERE. So you know your battery is good and the starter works OK because the engine turns when you try to start it. You crank and crank and crank but it just won't run. There are many reasons why an engine won't start. It's usually something simple.

Merccruiser engine won't start. My engine will not start up.
