melodyne manual | Melodyne essential 2 Online Manual ...

Melodyne is a software application for macOS and Windows with which you can edit audio in a more musical way than was ever thought possible. In Melodyne, you work with notes – not with some waveform that tells you nothing. You don't just see where the music gets louder or quieter but also where notes begin and end and at what pitch they lie.

Melodyne 4 - Basics of Vocal Tuning

As far as I'm aware, Melodyne Essential is a 64-bit plugin, and Audition CS6 is only 32-bit, so it won't work with it at all. There are two courses of action available to you: First is to contact Celemony and ask them if there's a 32-bit version available, and the second is to upgrade Audition to a 64-bit version.
