Materiel Development Decision (MDD) - AcqNotes

The purpose of the Materiel Solution Analysis phase is to? Conduct an AoA to analyze alternative material solutions, that meet the user's needs identified in the initial capabilities document.

The purpose of the Materiel Solution Analysis phase is to?

(8) The Materiel Solution Analysis Phase ends when the AoA has been completed, materiel solution options for the capability need identified in the approved ICD have been recommended by the lead DoD Component conducting the AoA, and the phase-specific entrance criteria for the initial review milestone have been satisfied.

DoDI 5000.02: Operation of the Defense Acquisition System

Materiel Solution Analysis Phase A study called an analysis of alternatives is conducted to assess alternatives to provide the desired capability; emphasis on innovation and competition and on existing commercial off-the-shelf and other solutions drawn from a diverse range of large and small businesses.

FMSOC BLOCK II Flashcards | Quizlet

Analyze Requirements During the Materiel Solution Analysis (MSA) phase the program works with its operational sponsors to refine and structure the program's requirements. To set the stage, the team should have a clear understanding of the users' Concept of Operations (CONOPS), performance objectives, and operational environment.

Analyze Requirements | AiDA

Programs should establish a risk management process during the Materiel Solution Analysis phase and include the process in their acquisition strategy. Risks are identified as a critical element of the AoA and related technical analysis.

Risk Management | AiDA

To analyze and recommend materiel solutions for the capability need identified in the Initial Capabilities Document (ICD). An Analysis of Alternatives (AoA) will be conducted and a Technology Development Strategy (TDS) will be formulated. A draft CDD may also be formulated depending on program circumstances.
