### **McCulloch Pro Mac 610 Chainsaw for parts or repair**

McCulloch and Eager Beaver chain saws are identified by a model number (in this instance, 600041, 600046, etc. ) followed by a suffix number (01, 02, etc.) stamped on the identification plate attached to the saw. JANUARY 1987 Suffix letters denote variations in parts or assemblies in the manufacture of the saw.

Mac has no used the .354 chain in years and never used it on the 610 saw. They may have used it on the 6-10 saw that was built in the 60's but not the newer 610 saw built in the 80's and 90's. If you break the air box on it I have one I'll sell you. My oppinion of the saw: It's a too saw; too heavy, too bulky, and too slow, just like a 009 Stihl.
