Page 1 The 1.7 has exceptional phase characteristics that are accomplished without the use of compensation networks. To realize the optimum phasing, the 1.7 should be angled inward to be on-axis with the listener. (Do not place parallel to the front wall.) In most rooms, we have achieved the best imaging with the tweeters placed on the inside. The frequency balance should be smooth for rooms ...

I bought a pair of Magnepan MG-1 Improved speakers in 1984. The sound stage is terrific, and smooth reproduction. However, these speakers need attention to placement in the room to sound their best. Most Maggies of this vintage eventually experience debond between the driver wires and the Mylar ...

Magnepan Owners Manual - 3babak.com

Magnepan makes good stuff. I have the 1.6R in my main system. Sounds wonderfully coherent with the right cable, In agreement with previous reviewer: My experience is that flat cables like the Goertz exacerbate the brittle highs and make the Maggies too ear piercing. With purist Audio, they mellow out. However, the SMGC that I purchased for my ...
