Make Manual Vacuum Pump

Make a Manual Vacuum Pump for Under \$20 by Converting a Bicycle Pump: A vacuum pump is just an air pump that you use for sucking rather than blowing. You can convert an old-fashioned "floor pump" ("bike pump") into a vacuum pump that can take over 75 percent of the air out of something. That's several times as st...

Make a Manual Vacuum Pump for Under \$20 by Converting a ...

The gauge measures vacuum relative to external pressure (in this case atmospheric pressure) which is the only way to do it. The standard measurement is in inches of mercury, which basically means if there were a vertical straw in a bowl of mercury and the vacuum on the other end, the vacuum would be determined by how high into the straw the mercury is forced to go by external pressure. 30 ...
