Manual vs Paddle-Shift Gearboxes - Road & Track

Paddle shift doesn't require much of a sacrifice in your ability to control the car like previous automatics did. In fact, shift times are much faster in a paddle shift car than you could ever do with a manual. Modern paddle shift cars are very responsive, so the lack of a clutch pedal doesn't really take away from the experience.

Manual Stick Shift Vs Paddle Shifters

Personally, I would rather have either a manual transmission or a fully automatic transmissison than a paddle shift, a DeSoto fluid drive, or a VW semi-automatic (I think VW called it the automatic stick shift. It took the Gross National Product of several third world countries to keep this automatic stick shift working properly).

Manual vs paddle - General Discussion - Car Talk Community

With a manual transmission you also get to control your rpm's but of course you would use the stick instead of paddle shifters. I've driven both and in my personal opinion an automatic transmission with the paddle shifters is no where near as fun as a manual. With a manual you can feel the engine much better and the throttle is much more ...
