Marsupialization Cyst Manual Guide - lionandcompass.com

Marsupialization: This involves making a small cut in the cyst, draining it out, and then stitching the edges of the skin there onto the surface of your vulva to create a permanent drainage passage. This procedure generally requires the use of general anesthesia and is mostly only recommended for recurring cysts.

Bartholin's Cyst: Symptoms, Causes, and Treatment

A Bartholin cyst is a lump near the opening to your vagina. You may have pain in this area when you walk or have sex. A Bartholin cyst is caused by blockage of your Bartholin gland. You have a Bartholin gland on each side of your vagina. The glands produce fluid to moisten your vagina. Over time the fluid can build up in the gland and form a cyst.
