*20. Although similar to the strict cash basis, the modified cash basis of accounting requires that expenditures for capital items be charged against income over all the periods to be benefited. This is done through conventional accounting methods, such as depreciation and amortization. Under

the strict

CHAPTER 3

Questions Chapter 13 (Continued) 7. A discount on notes payable represents the difference between the present value and the face value of the note, the face value being greater in amount than the discounted amount. It should be treated as an offset (contra) to the face value of the note and amortized to interest expense over the life of the note.
