I have a Mercury Autoblend II that has never been used, and I don't want to use it, I only bought it to add to my Mercury collection. However I would like to know how it works and I would like to find an owners manual for it. How and why is it able to add the right amount of oil ?? Any info would be greatly appreciated. Thanks, JIM

I have Mercury Mariner 50hp 3 cylinder, serial #0C161068 with an auto-blend oil pump to mix gas. When I tried to start the motor, it doesn't start. I took the carbs cover off and I found out that there was only oil going to it. I traced from the pump at the side of the motor and the filter to the carbs and found only oil. The spark is fine. the motor will only start if the gas is added directly ...

Can anyone share any information on the Mercury Marine Auto Blend manual oil injection unit? Because of the time of year, I have not had my recently purchased Force 50 hp outboard in the water. It came with the auto blend unit. Although the motor is a 91 model, it is in very nice condition and the price was very right.

Frontier, autoblend is simply an oil mixer actuated by the press/vac pulses of the fuel pump. The fuel flows through the autoblend, gets a dose of oil and then on the the engine so all you have to do is to disconnect the fuel line from the auto blend unit and run fuel line to engine in normal fashion and add 50:1 ration (gas to oil).
