When you turn on the valve for the rotisserie burner you should hear and smell the gas if it is flowing. Light the rotisserie burner with a manual lighter, if it lights manually, then the gas if flowing. The seconc thing to look for is a spark from the electrode when you turn or push, depending on the type of spark generator you have.

Roasters & Rotisseries - Walmart.com

I wanted it right after finishing the series so I think it fit in well with the story. It allowed for time to progress and the characters to change a bit while bringing them back together they still had their same spark as people. I appreciated the looking forward we were left with instead of the questions from the series.
